FINE CHOCOLATE CATALOGUE

# BORN AND MADE IN LATIN AMERICA

República del Cacao was born in 2007 with the purpose of protecting and developing Fine Cacao in the region, producing and commercializing high-end chocolates from a perspective of responsibility and origin.

We've identified the best small cacao farms and trees through a long research and development program. Uniting more than two thousand small Fine Cacao and native natural ingredient producers.

We share our dedication and passion for chocolate and Fine Cacao with our costumers through our Destination Chocolate-Boutiques, so they can learn about the origin of Fine Cacao, turning our brand itself into a travel destination.

We merge our Chocolate-Boutiques and Duty Free operators with the creation of Store-in-Store spaces, where our brand ambassadors offer specialized service to costumers under our emblematic architecture.

Our work is shared and enjoyed in 4 continents, 20 countries, over 30 Chocolate-Boutiques and within the prime Duty Free operators in the world.

WE HOPE YOU ENJOY OUR CHOCOLATE AS MUCH AS WE ENJOYED CREATING IT!

## THE WORLD'S BEST FINE CACAO

We work with local farmers in Ecuador, Colombia and Peru to protect traditions and develop the skills to produce the finest cacao. This unique native Fince Cacao varieties allows República del Cacao to produce high quality chocolate that surprise and delight the most educated palates in the world.

## CUTTING OUT THE MIDDLEMAN

We focus on working directly with our community, eliminating intermediaries and keeping the added value locally. This close relationship allows our customers to know where our raw materials and final products come from.

## ECUADOR THE HOME OF CACAO

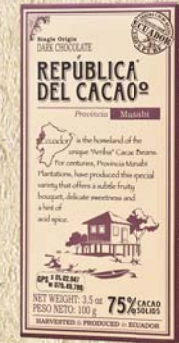

Ecuador's unique equatorial climate provides the perfect environment for growing the world's finest cacao - Cacao Nacional Fino de Aroma, also known as Cacao Arriba. Our research and development program effort has also brought our small farmer collaboration to our neighbouring countries, letting us increase our native Fine Cacao portfolio.
